Achievements

✓ Wordpress course from MOON CREATIONS in MUZAFFRABAD,AJK .

✓ I can now consider this another big achievement by learning the skill of PYTHON PRPOGAMMING.

What I have learn in this course:

- **HTML layouts, structure & semantics**
  - CSS syntax & styling
  - Responsive web design using media queries

- **JavaScript programming**
- Data types, variables, & operators
- Control flow statements (if/else, loops)
- Functions & arrays
- DOM manipulation & event handling
- Async programming with callbacks & promises

- **Bootstrap (to avoid clash with CSS).**
- How to enhance projects without CSS conflicts

- **PYTHON programming**
- Syntax, data types, variables, & operators.
- Functions, arrays, & control structures
- Object-oriented programming (OOP) concepts

- **Django framework**

- Building web applications with Laravel

- **MySQL database management (DBMS).**
- Creating databases, tables, & queries.
- Understanding database relationships

- **CRUD operations with (PYTHON &DJANGO).**

- Deploying projects to production environment
- Securing code & removing vulnerabilities.

- **Review & Version Control via Git**

- Portfolio Project.
- Ecommerce project in process
